

Float finance

Credit reputation on chain
for businesses

The chicken and Egg Problem

> Late payment is a **\$2.5 trillion** trade finance gap roughly **10%** of world trade

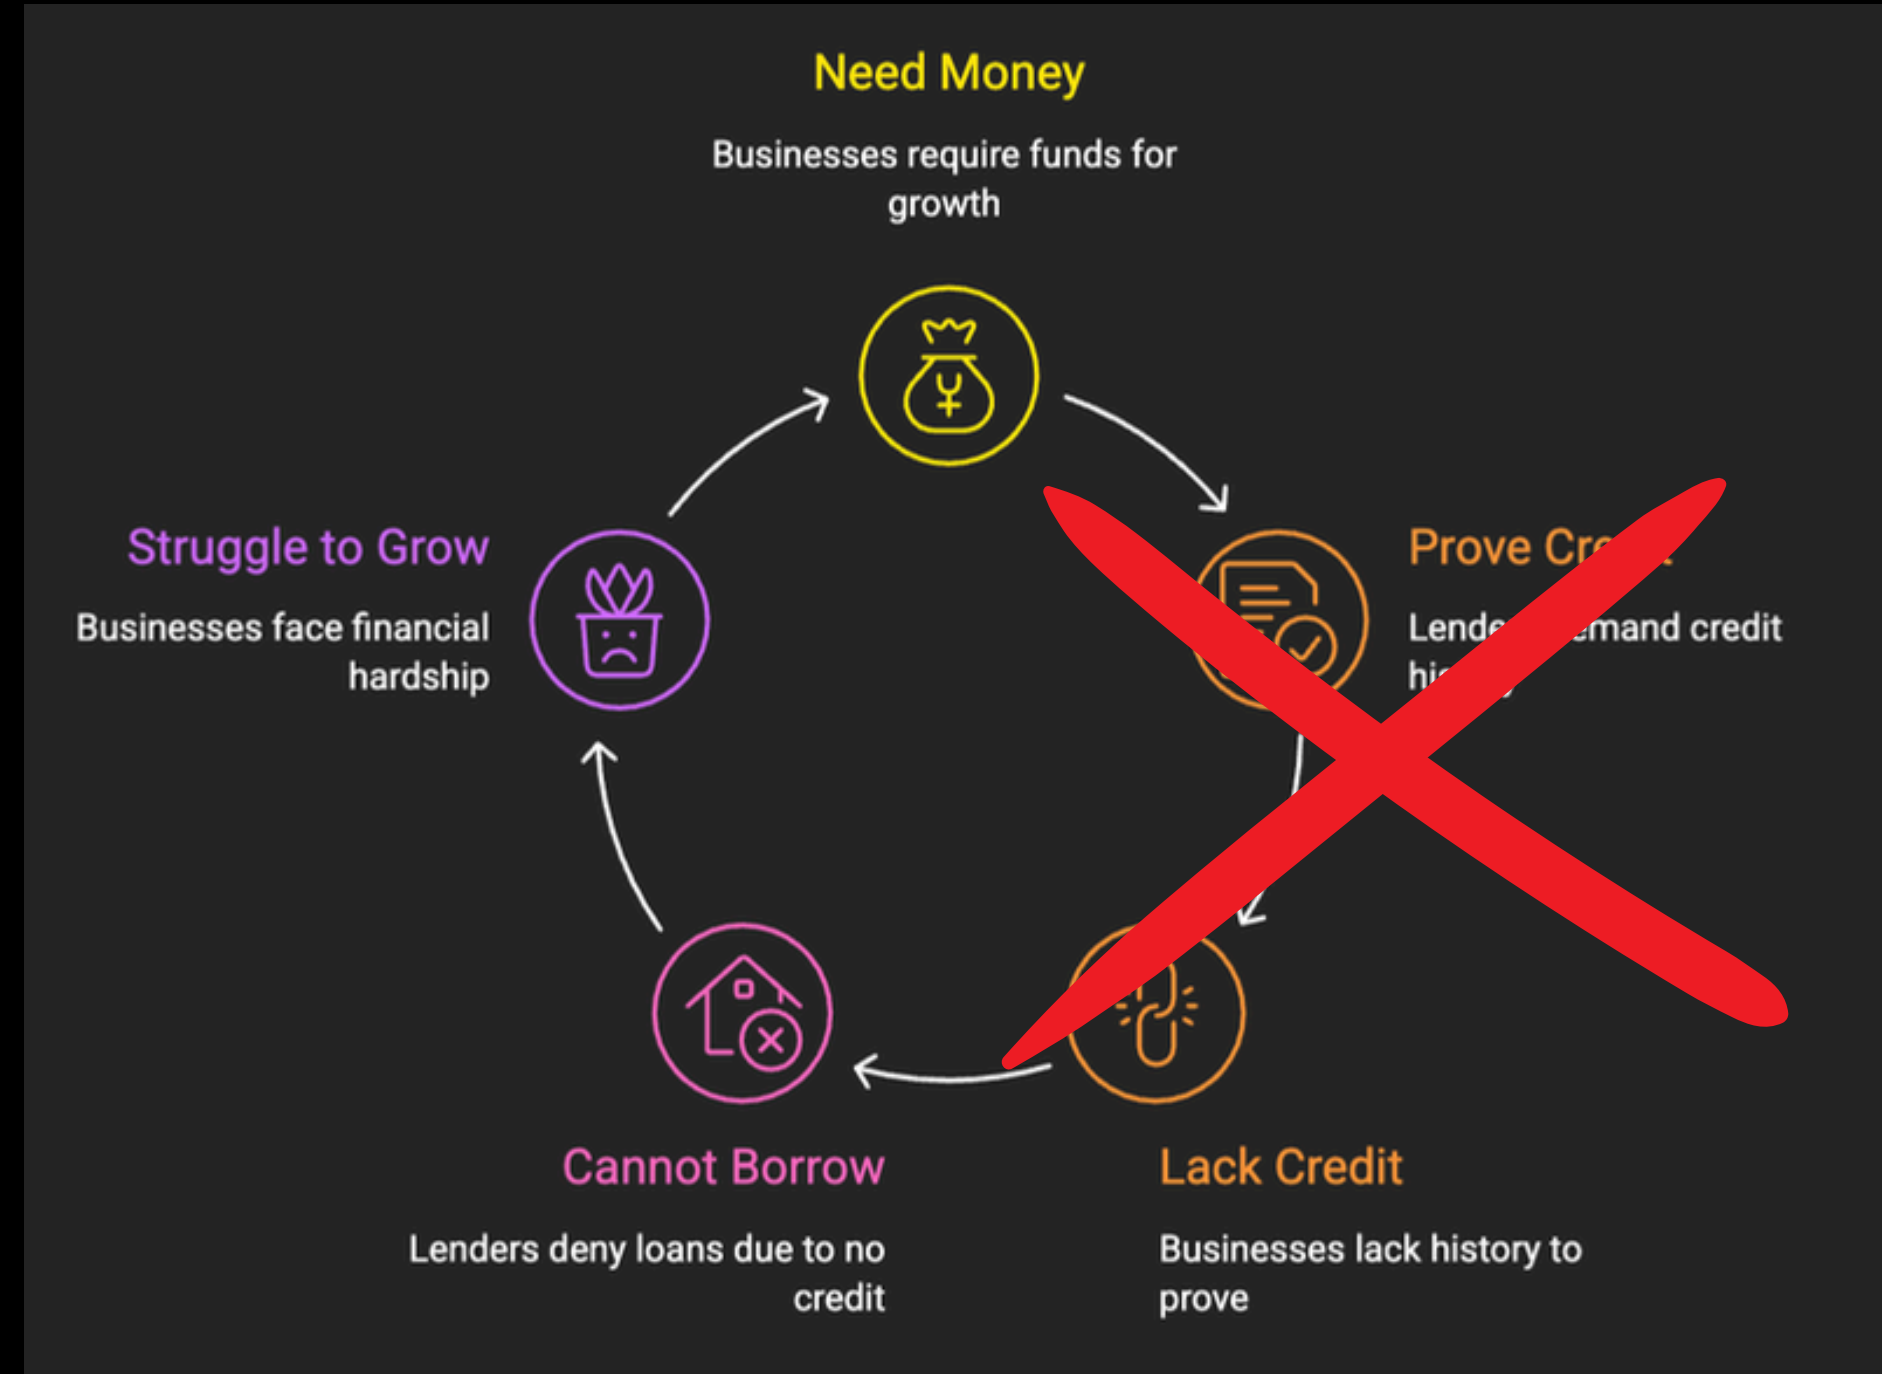

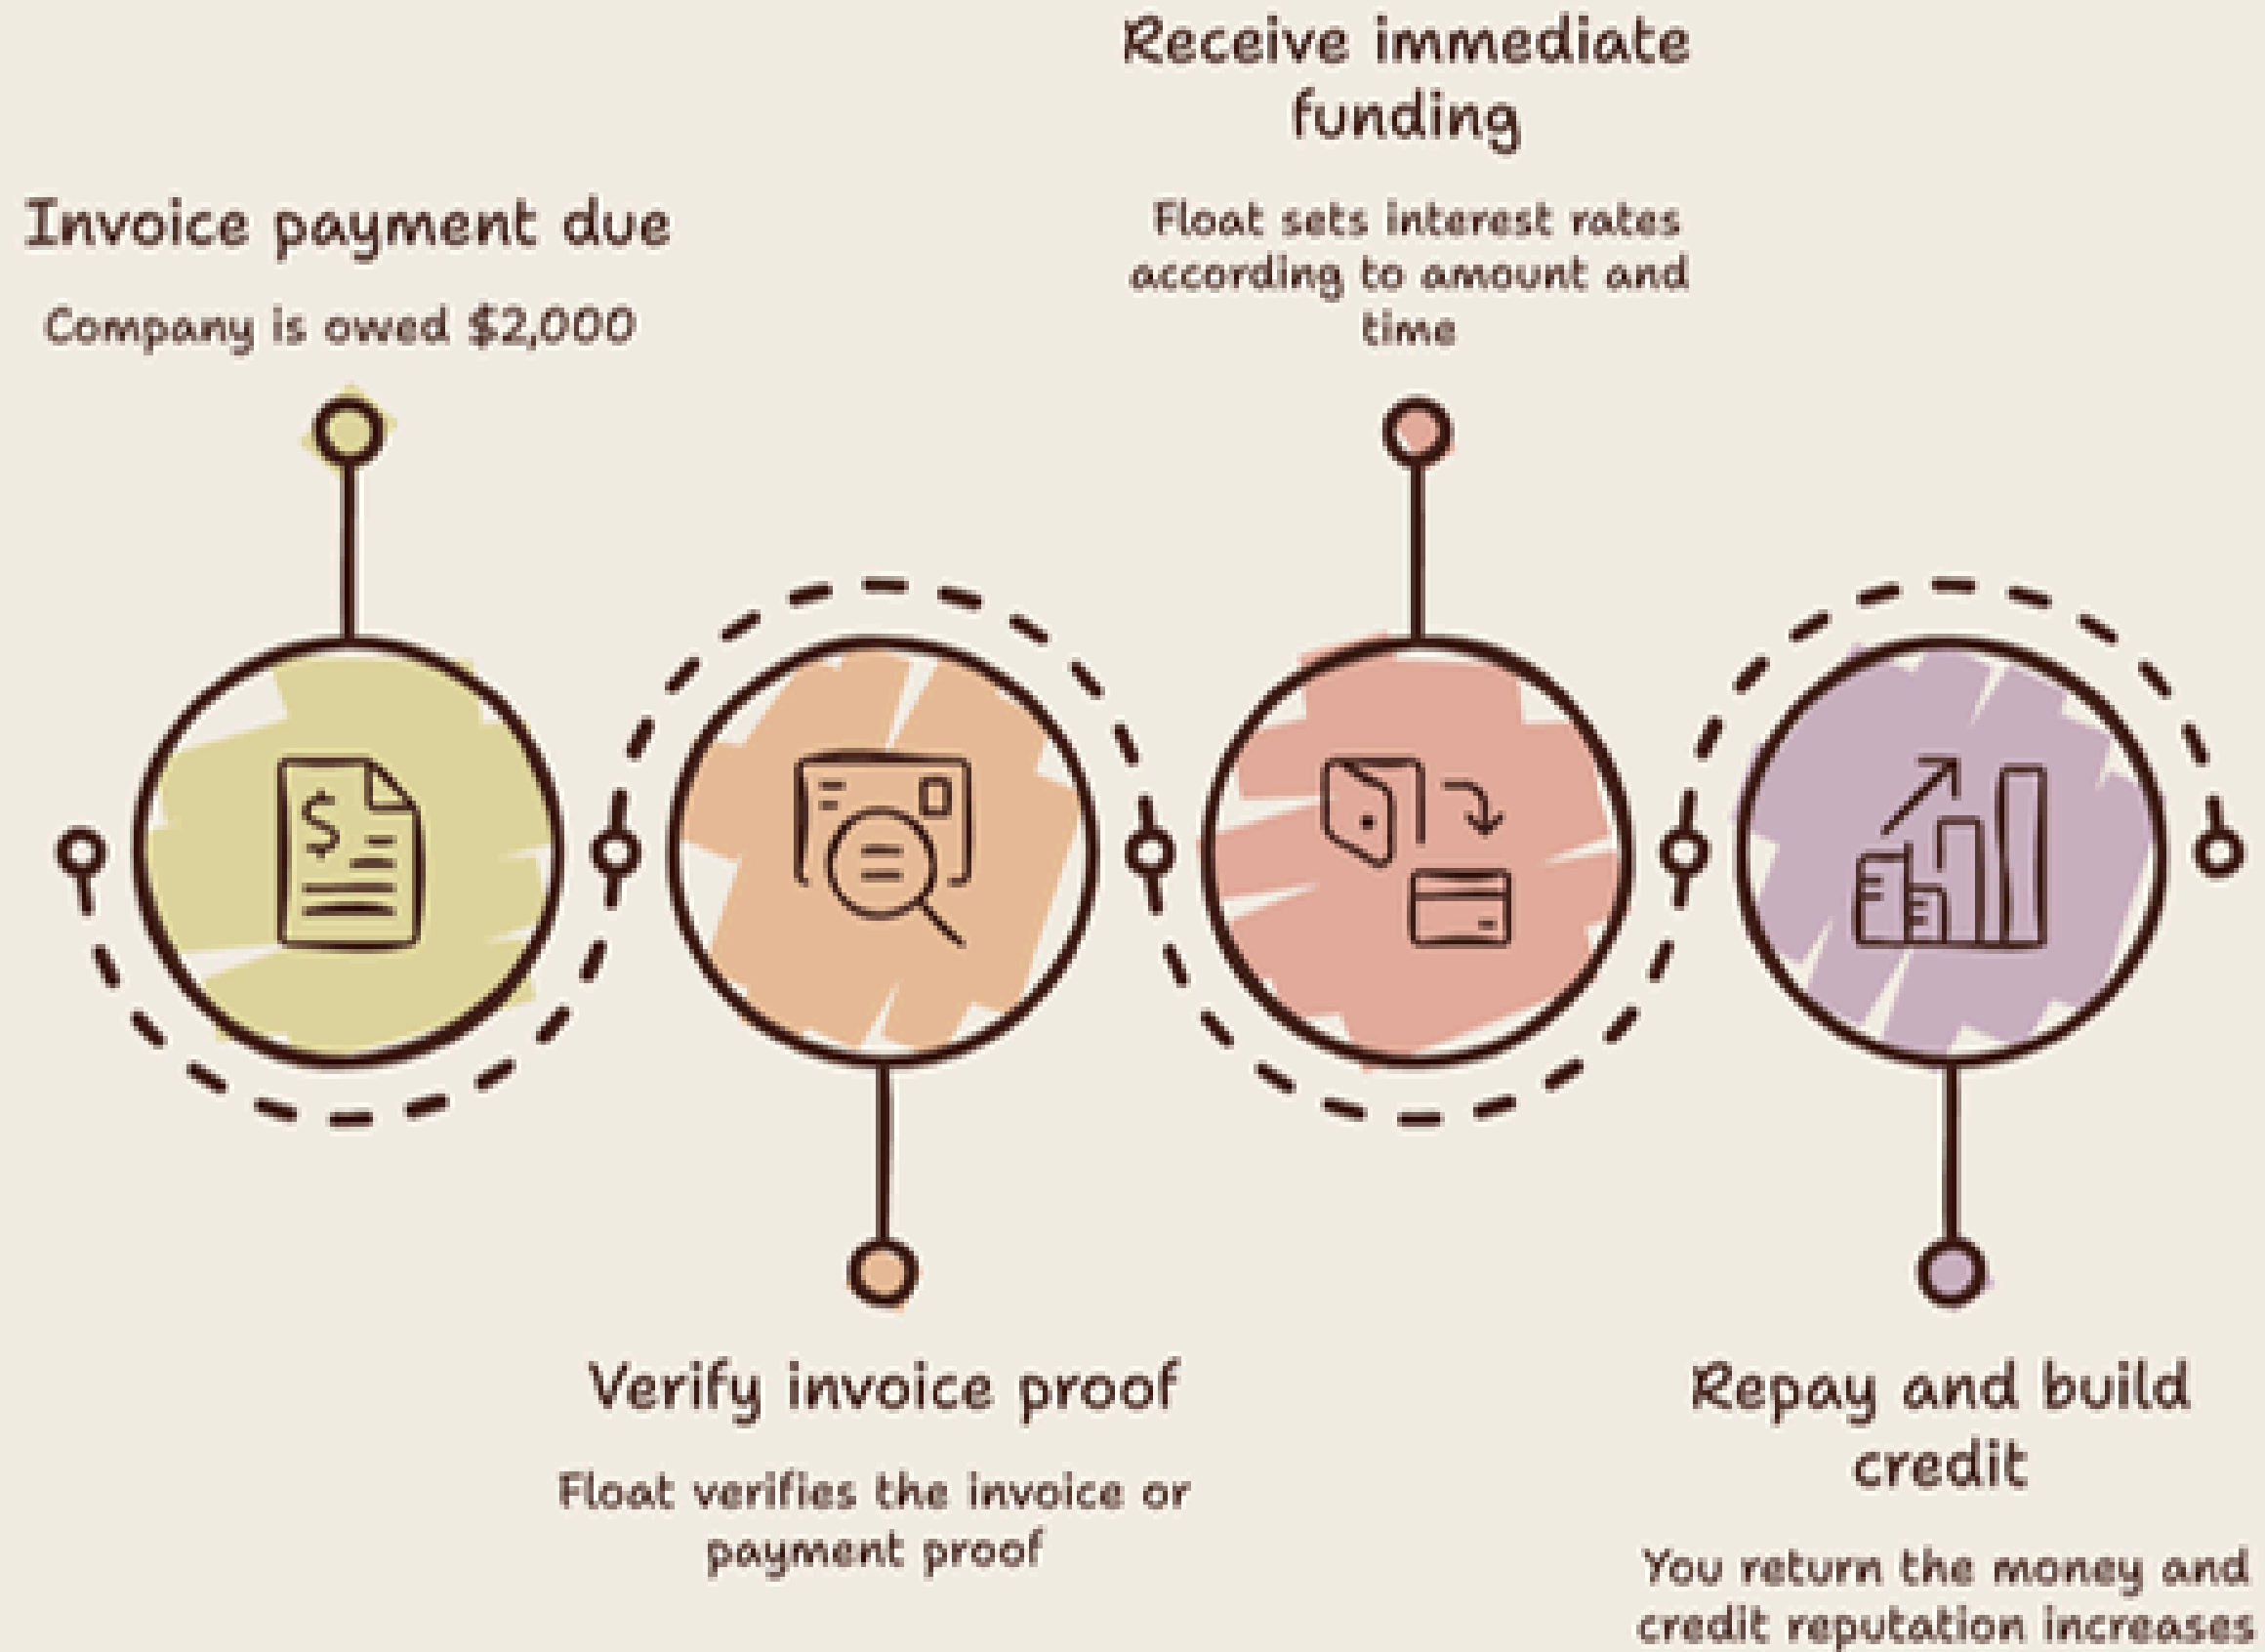

Why Not just Bank , why solana?

how do we break loop ??

Credit history is evidence of your past. An incoming payment is evidence of your future. Float underwrites the second one.

Working capital now.
Credit reputation with every repayment.

Future potential

Repay your first advance to demonstrate a limit increase from \$10,000 to \$15,000.

Traction & business model

25 people on the waitlist.
Pilot begins soon.

Proposed revenue: a financing charge
on each short-term credit advanced.

Market, timing & Solana

Starting with India,
one jurisdiction
at a time

- Why now: growing stablecoin payment options
- Pilot: validate demand and lending economics

Competition

Huma: on-chain payment financing

how do we expand?

*if this succeeds ,
and the model works , we will try open it up for
indivisuals as well*
