I have been using a product new to me this week.

I funded this wallet with 25 of the most precious SoyLanas I have and in 5 days it has made almost 5 SOL. 🍀

Here is my referral link if you love me and I tagged the X account in the photo

alhamdulillah Bismillah DAWO August closed out with a profit of \$82k or about 1.4m IDR using unicrit

the lp telegram bot I built from day 1 of the RH chain or during the cashcat launch, sparked by my friends' frustrations over uniswap's shitty UI/UX for LP

this is the total
