

SoloDeath

The workout RPG with
Solana reward pools

Live app + devnet roadmap

Starting is easy. Returning is hard.

For people who keep **restarting fitness**,
reminders are easy to dismiss.

SoloDeath makes **consistency** part of the game.

A workout RPG

Complete a **daily quest**.
Earn XP, gold and sealed gear chests.

Climb from E rank to S rank.
Missed days put your hearts at risk.

57 daily completions from fresh E rank.
Progression rewards consistency.

Product demo

The daily workout game is live on iOS and Android.

LIVE TODAY

Show up. Win more.

Proposed Solana pool · Reach S rank by your deadline.
Example: 10 players × 100 test tokens. 8 succeed. 2 fail.

Win: 125 tokens

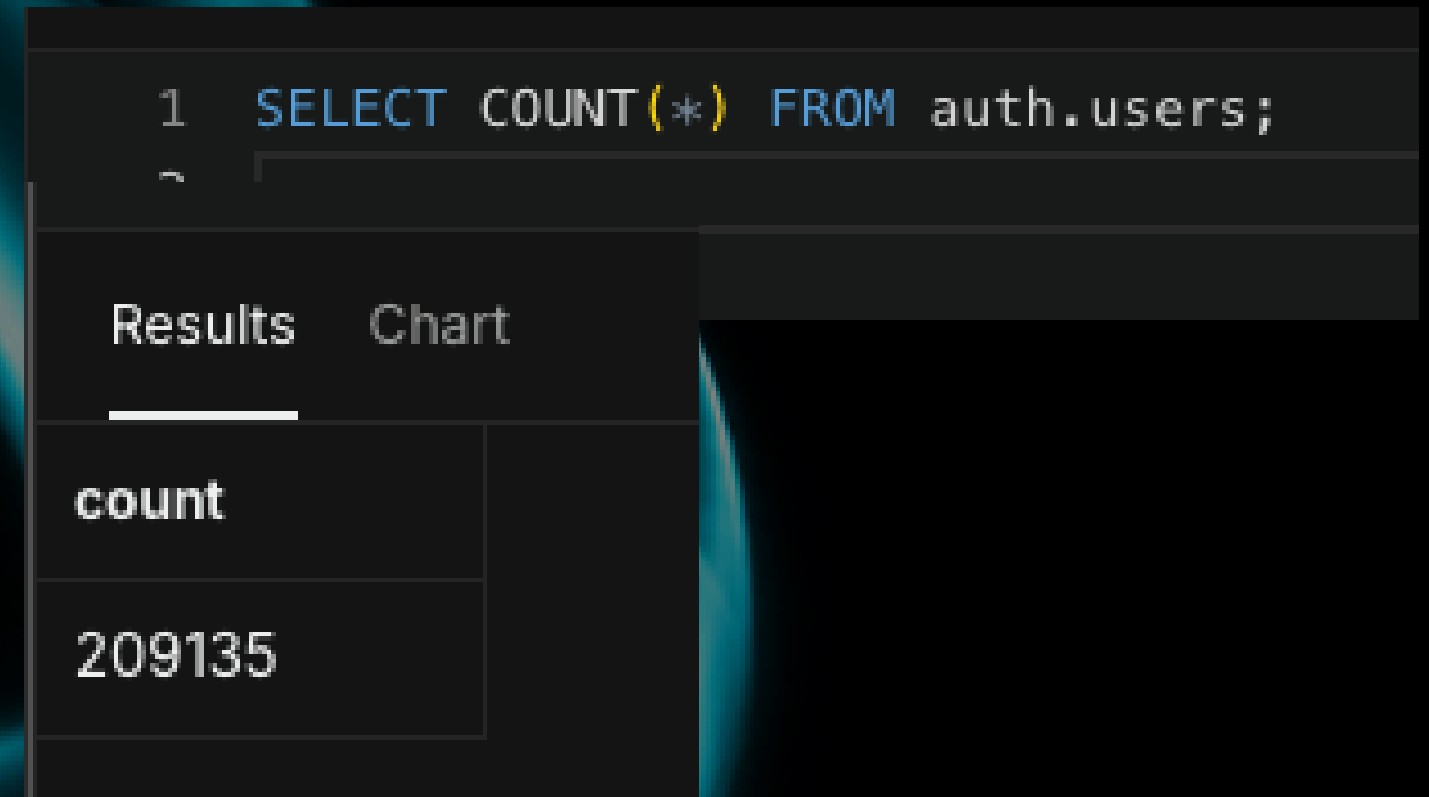

100 returned + 25 bonus.
200 forfeited ÷ 8 winners.
Illustration before fees.

Fail: 0 tokens

Your full deposit is forfeited.
It funds the winners' bonuses.
No failures = no bonus.

Our position

For fitness beginners who enjoy games and want stronger accountability.

A screenshot of a SQL query interface. The top part shows a SQL query: '1 SELECT COUNT(*) FROM auth.users;'. Below the query, there are two tabs: 'Results' and 'Chart'. The 'Results' tab is selected, and it displays a table with one column named 'count' and one row with the value '209135'.
