

TUC Event Wallet

We recover event materials that can be upcycled and turn them into new products, while verifying the journey.

Venessa Kumang Amen · Business Events · Nathan · Blockchain & Product

THE PROBLEM

Every event ends the same way.

01

UNUSED

Usable event materials lose their value once the event ends.

02

UNCONNECTED

An event organiser lack a simple pipeline to move suitable materials into new products.

03

UNVERIFIED

Once materials leave the event, an event organiser rarely know what they became.

THE SOLUTION

One loop, five steps, to you - TUCEW!

01 COLLECT

We collect usable
event materials
through TUCEW.

02 VERIFY

We weigh, record
and verify the
handover.

03 UPCYCLE

Local Sarawak
community makers
transform materials
into new products.

04 REWARD

People contributing
earn TUC rewards.

05 PROVE

The material journey
becomes a verifiable
record and a new
transformed product.

THE PRODUCT

One handover. A complete journey.

01 HAND OVER

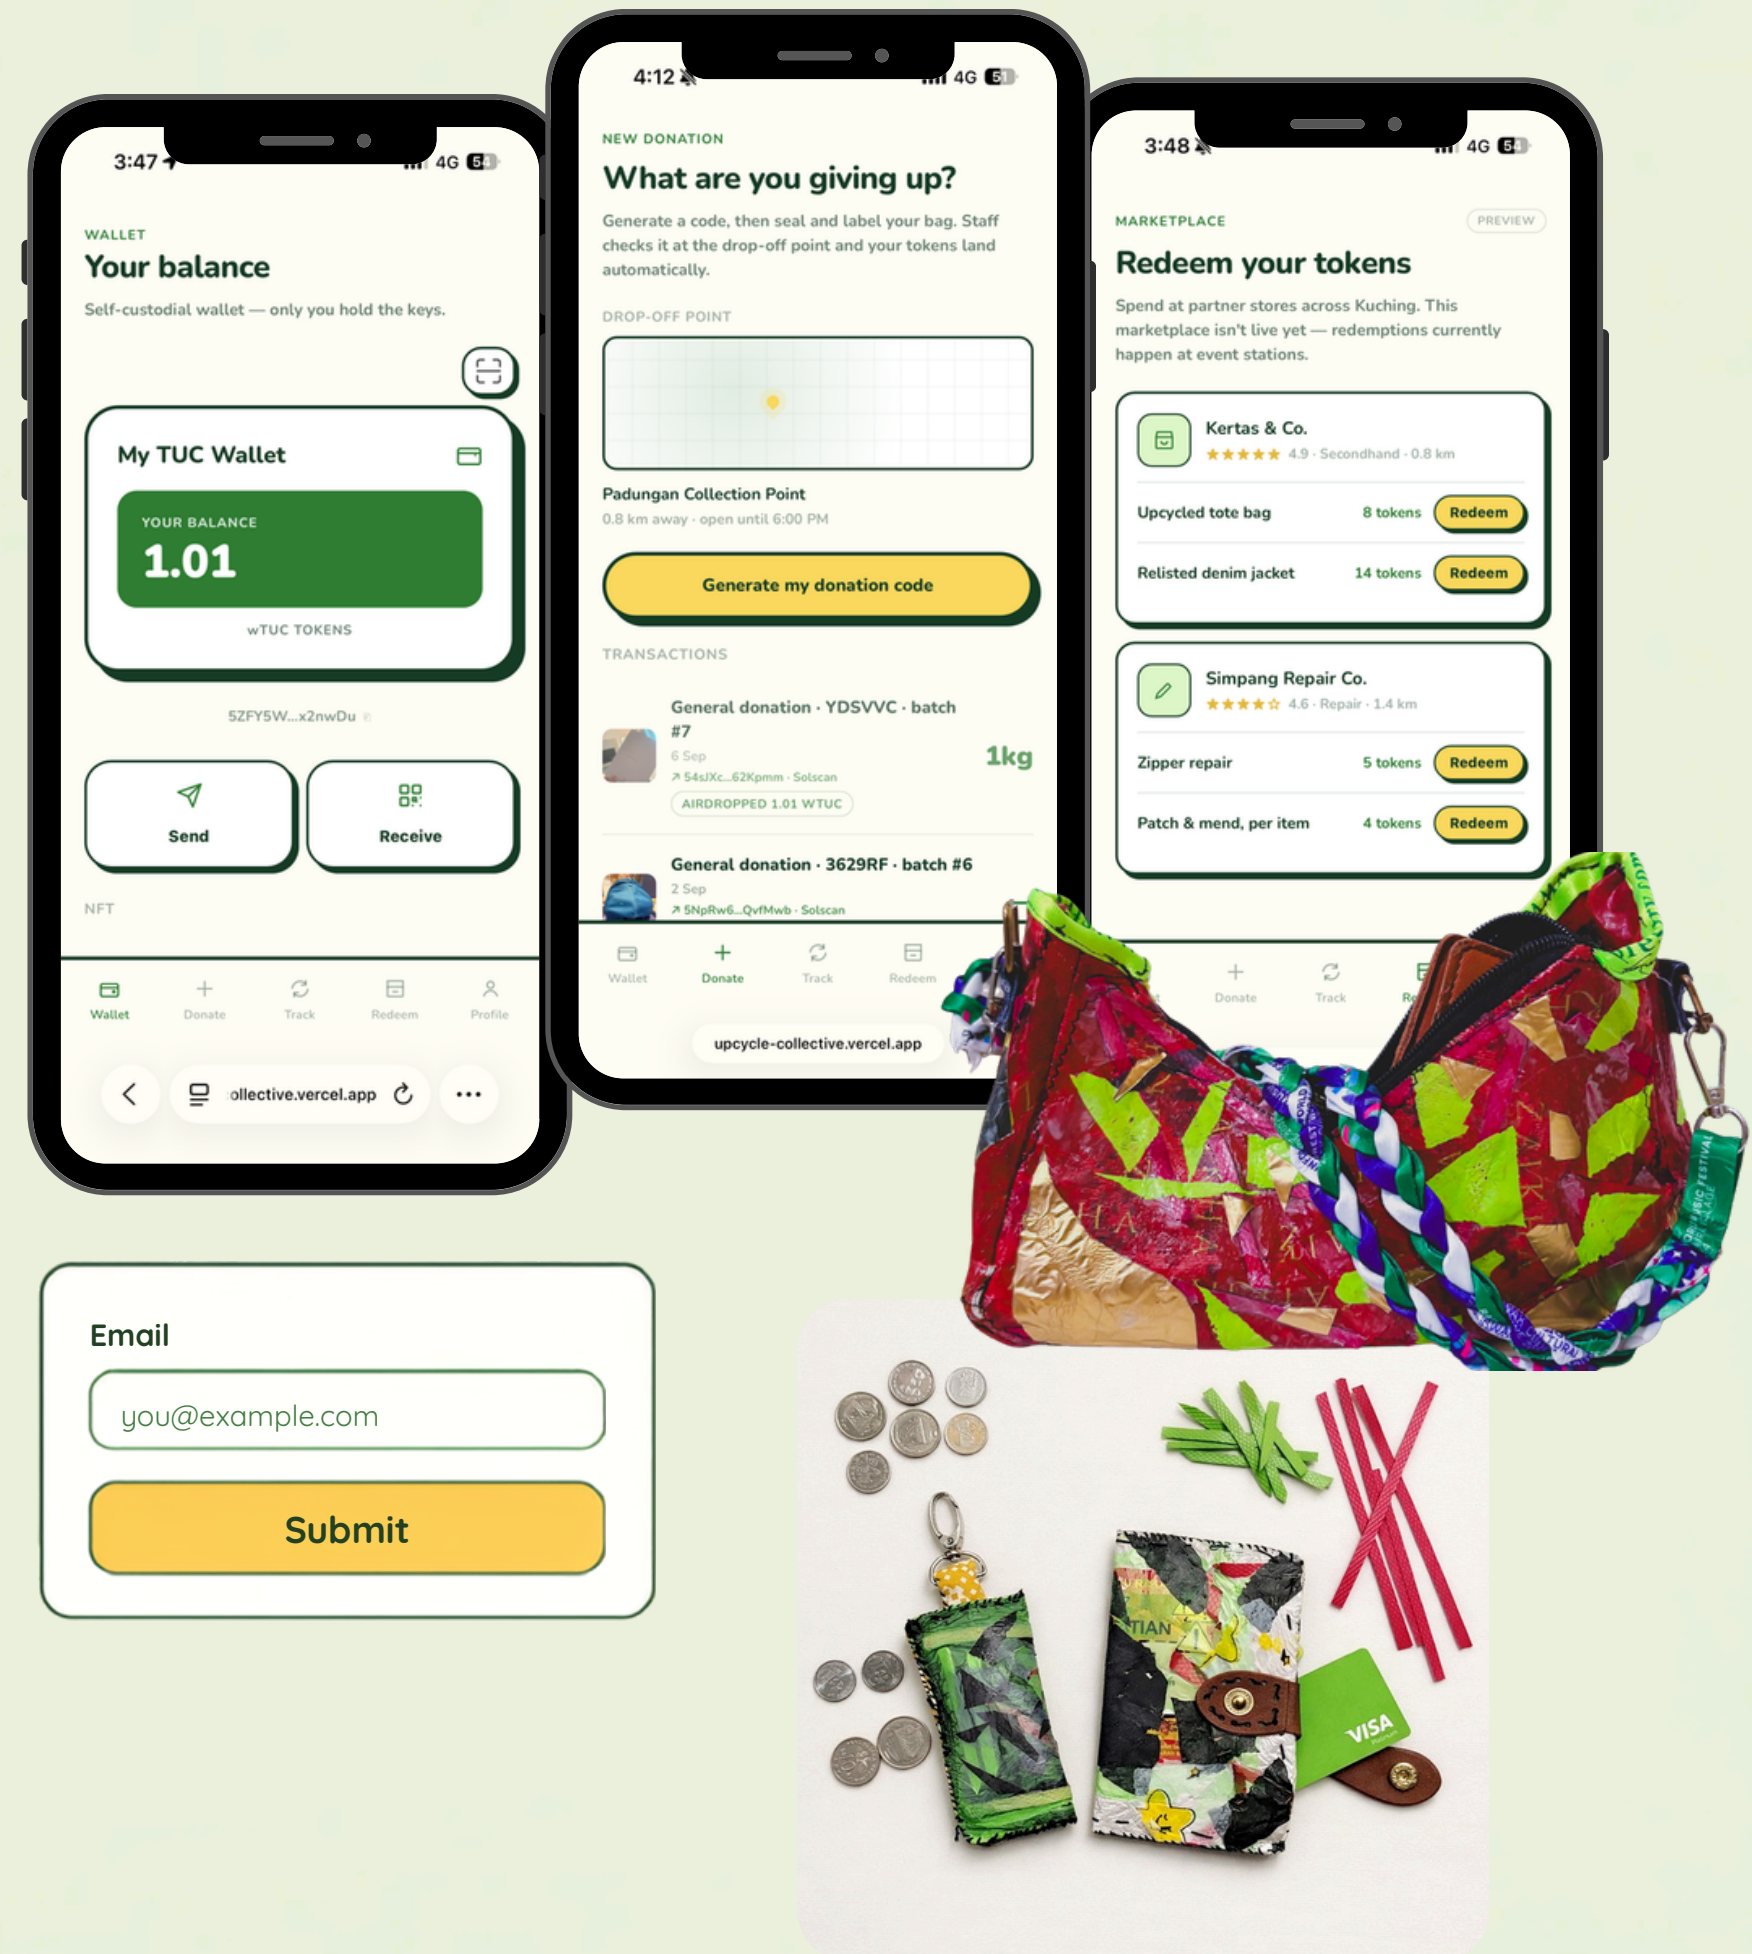

Event organiser submits event material for collection.

02 TRACK

TUC records weight, handover, and transformation journey.

03 SEE THE OUTCOME

Event organisers get a simple record of materials recovered, activities completed, TUC Tokens earned and spent, and the transformed products created after the event.

TRACTION

We already ran it live on July 2026.

PILOT RATING

July 2026 → Sep 2026 (Collection bin @ The Spring Mall, Kuching) → Oct 2026 (TUC 2nd Pilot):

Prototype → real users → recurring collection → real material handover → verified upcycled products.

Primary revenue

B2B event recovery + upcycling fee paid
by event organisers

Secondary revenue

Upcycled product as ESG Sustainable
Corporate Gifts sales + transformation
projects + workshop fees

Event Organizers pay TUC to manage the material loop.

WHY THIS, WHY NOW

The Sarawak event industry is ready to close the loop.

MARKET

Event Organisers @ Kuching, Sibü & Miri.

Sarawak's MICE ecosystem + community events market at Kuching, Miri & Sibü, with BCCK expanding to 9,500 delegates by 2028.

WHY NOW

Proof matters

Organisers need measurable sustainability evidence. Rising ESG reporting pressure, making waste accountability & impact proof increasingly important.

WHY SOLANA

Shared verification

Real-world assets are moving on-chain. Solana gives TUC a trusted shared layer for the material journey.

JULY 26: 1ST PILOT @ KUCHING

OCT 26: 2ND PILOT @ KUCHING

Q1 2027: TUC FULL APP LAUNCH

Four kinds of players already touch this problem. TUCEW is a circular loop that creates value beyond the event.

**IMPACT REPORTING.
ISLA (TRACE), MEETGREEN**

Covers impact reporting and sustainability claims, but does not manage the material loop.

**EVENT WASTE
OPERATORS. CLEAN VIBES
& POPUP CLEANUP**

Covers collection and disposal, but not verified reuse or product transformation.

**BLOCKCHAIN
RECYCLE-TO-
EARN. RECYCLEX**

Covers recycling rewards and consumer participation, but not event-specific reuse.

**MALAYSIA RECYCLING
APPS. RECIRCLE**

Covers recycling access and household participation, but not the event-to-product journey.

TUC EVENT WALLET

The closed loop for event.

Collect, verify, upcycle, reward and prove, all in one chain of custody.

Event-specific material recovery, verified handovers and a local community maker network in one system.

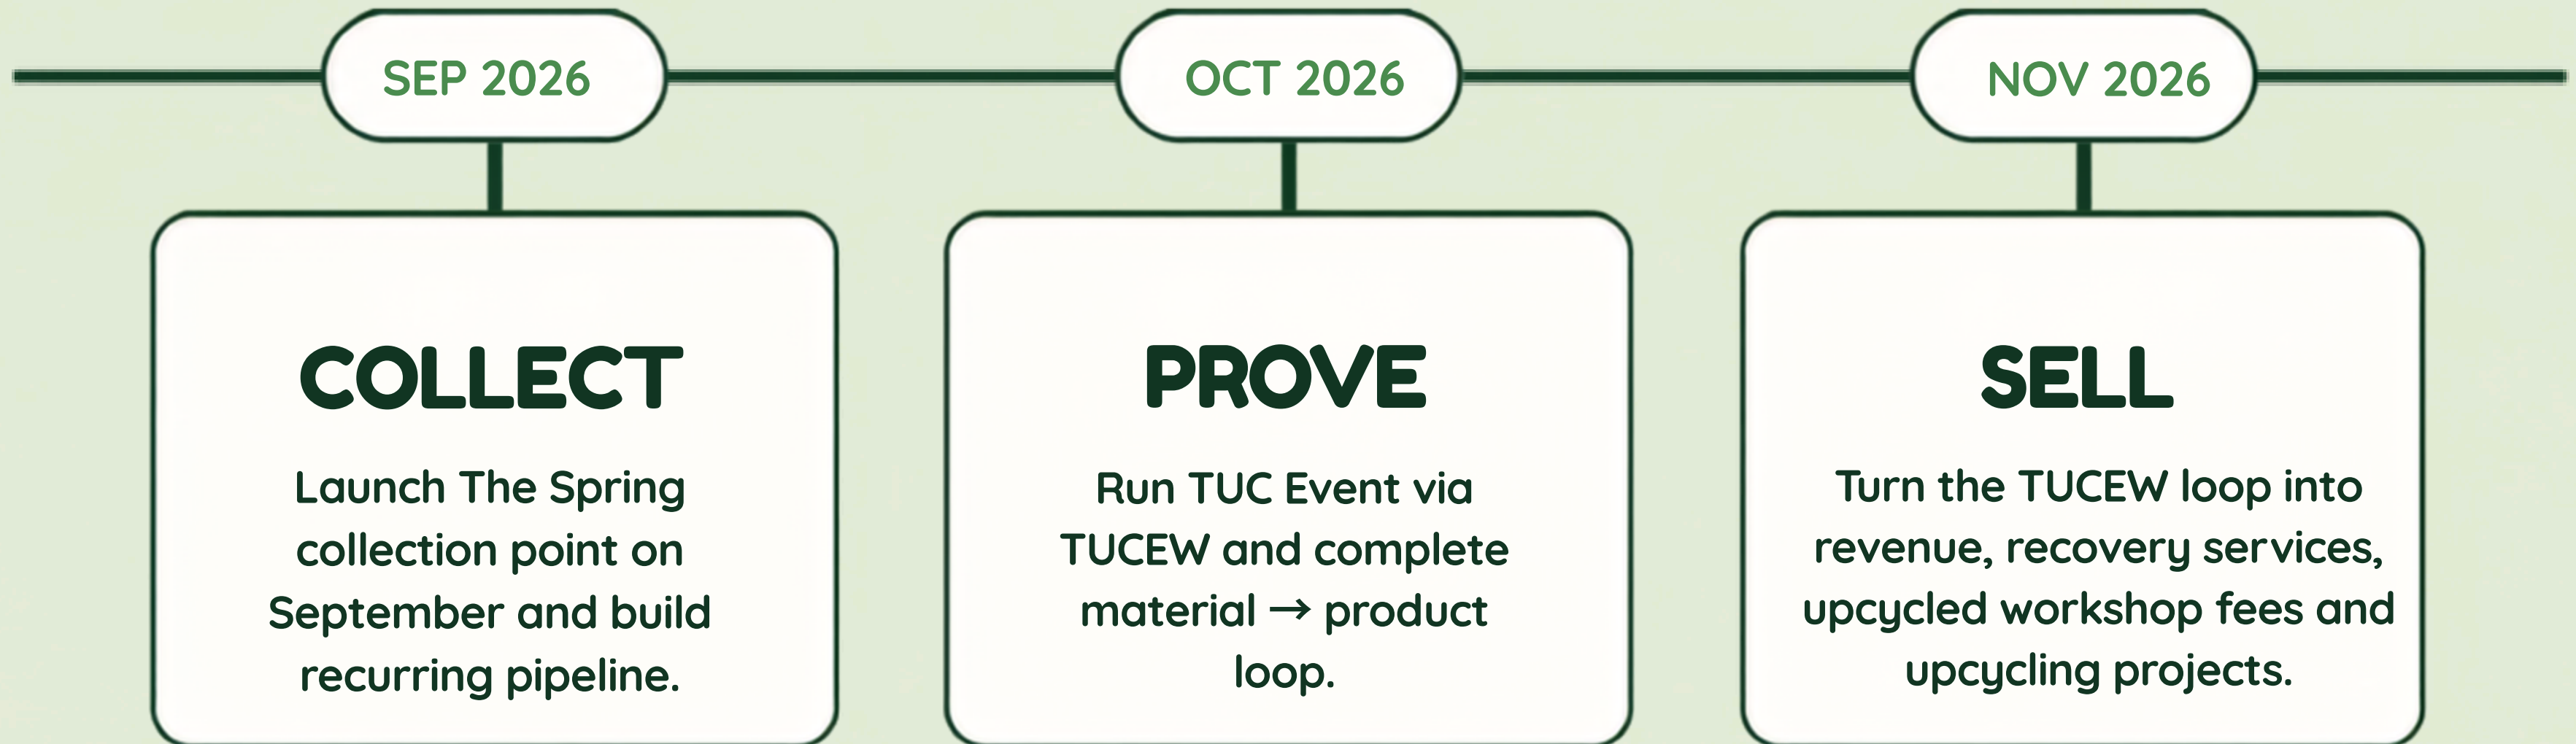

Physical proof, not self-reported estimates, so event organisers get a verifiable records, not emissions assumptions.

Built inside Sarawak's MICE ecosystem, designed for event-specific reuse.

NEXT 3 MONTHS

From one pilot to a repeatable service.

Target: 3–5 paying event organiser pilot commitments.

TEAM

We bring the event industry with us.

**VENESSA
KUMANG AMEN**

Business & Events

Community and MICE professional with hands-on experience across Sarawak's business events industry.

NATHAN KUEH

Blockchain & Product

Builds TUC's wallet, Solana integration and product infrastructure.

We know the industry, the organisers and the ecosystem, because we're already part of it.

THE ASK

Help us turn TUCEW from a working pilot into a scalable product.

CUSTOMERS

Help us secure our first 3-5 paid event organiser pilots.

MENTORS

Help us sharpen the B2B model, pricing and Solana architecture.

SOLANA ECOSYSTEM

Connect us with builders, ESG experts, partners and early adopters to scale.

BUILD THE LOOP
